

Information for Contributors

Electronic submission is preferred. Contributors who submit typed manuscripts should use double-spacing throughout (including endnotes) on A4- sized paper or equivalent and be between 15 and 20 manuscripts pages including charts, notes, and appendices. Typed manuscripts should be supplemented by an IBM- formatted diskette using Microsoft Word (version 5.0 or later). All manuscripts must include an abstract (100 words or less) which outlines the major contributions of the article.

The Faculty of Education Review is a peer-reviewed Journal. Each contribution should fill a place in the accumulated knowledge of a field and represent original, valid, and significant work in that field. Manuscripts submitted will be peer-reviewed by at least two reviewers who provide evaluations of the manuscript quality and appropriateness for the Review. Most manuscripts need revision and some more than once. However, revision does not mean acceptance. A manuscript may be accepted as is, conditional on satisfactory revision, rejected encouraging revision, or rejected.

All manuscripts will be subject to masked reviews, which conceal the identity of the author from the reviewers. Peer reviewers and the editor judge a manuscript according to the following criteria:

1. The manuscript represents an original, valid, and significant contribution to the field of education.
2. The manuscript clearly conveys its message as briefly as its content permits.
3. The manuscript is composed according to generally understood and accepted scholarly standards.

Manuscripts should be submitted as follows:

- 1.) E-mail: <methiPln@au.edu>, <robert3@cscoms.com>
(Attachments as Microsoft Word Documents only)
- 2.) Airmail: Faculty of Education Review
